## EDUCATION

**California State University, Northridge** | B.S. Computer Science      **Expected Graduation Date: May 2027**

GPA: 3.56/4.0

- **Relevant Coursework:** Introduction to Programming/Algorithms, Computer Architecture, Data Structures/Algorithms

## EXPERIENCE

**Department of Child Support Services**

*Jun 2023 – Aug 2023, Jun 2024 - Aug 2024*

IT Intern (System Administration)

Camarillo, CA

- Assisted in distributing and installing new technology across the department, boosting productivity and streamlining operations.
- Delivered technical support through the helpdesk ticketing system, resolving hardware and software issues to improve operational availability and extend mean time between failures.
- Deployed and managed application packages using Microsoft SCCM to automate installations and updates across 100+ office computers, ensuring consistency and reducing manual workload.
- Revamped departmental intranet websites built with ASP.NET, enhancing user experience, accessibility, and long-term maintainability.
- Gained exposure to Imprivata for secure user authentication within intranet systems.

## PROJECTS

**Portfolio**

*Dec 2023 – Present*

Personal Portfolio Website

*HTML, CSS, React JS, & Vercel*

- Built a responsive portfolio website to highlight personal projects, deployed with Vercel.

**Weatherly**

*Feb 2025 – Apr 2025*

Weather Dashboard

*HTML, CSS, React JS, Tailwind, One Call API, Geocoding API, & Vercel*

- Integrated OpenWeather One Call API and Geocoding API to display real-time temperature, sunrise and sunset times, weather conditions, wind speed, and humidity.
- Built a responsive React and Tailwind frontend to present forecasts/conditions with a clean UI.
- Applied HTML and CSS fundamentals to ensure accessible structure and consistent styling across devices.

**ChatLink**

*Jul 2025 – Present*

Messaging Web Application

*HTML, CSS, React JS, Tailwind, Firebase, & Netlify*

- Developed a chat app to strengthen understanding of relational authentication and database storage.
- Integrated Firebase for real-time syncing across devices, along with user authentication.

## SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, Typescript, Java, Python, C++
- **Frameworks & Tools:** React, Node.js, Express, Tailwind, Firebase, PostgreSQL, Prisma, Vercel, GitHub, Netlify, ASP.NET
- **Additional Exposure:** Imprivata, Helpdesk Ticketing Systems, Device Management Systems
- **Hardware:** PC building, hardware troubleshooting, system setup & configuration
